Dr. Shoop's Rheumatic Cure Costs Nothing If it Fails.

Any bonest person who suffers from years I searched everywhere to find a specific for Rheumatism. For rearly 29 years I worked to this end. At last, in Germany, my search was rewarded. I found a castly chemical that did not disappoint me as other Rheumatic prescrip-

I do not mean that Dr. Shoop's Rheu matic Cure can turn bony joints into fiesh again. That is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of libeaunatism. I know this so well that I will formists for a full mouth my Rhoumatic Cure on trial. I cannot cure all cases within a mouth. It would be unreasonable to expect that. But most cases will yield within 30 days. This trial treatment will convince you that Dr. Shoop's Effeatmatic Cure is a power against Rhommstian e a polent force against disease that is irrespible

ary offer is made to convince you of my faith. My faith is but the outen faith. My faith is but the outcome of experience—of actual knowledge. I KNOW what it can do. And I know this so well that I will turnish my remedy on trial. Samply write me a postal for my book on the smeather. I will turnish my remedy on trial. Samply write me a postal for my book on the smeather. I will then arrange with a ornegast at some vehitly so that you can secure a x soutless of the test. You may take it a tull magin in tria. If it succeeds the cost to you is \$5.50. If it fails the loss is mine and mine alone. It will by left entirely to you. I mean that exactly I you say the trial is not satisfactory I you is expert a permy from you. I have to samples. Any here estable that can affect chronic fleewant is must be drugged to the verge of danger. I use no drugs, for it is dangerous to take them. You must get the casease out of the clood. My remedy does that, even in the most difficult, obstinate cases. It has cared the oldest cases? I ever met, and in all of my experience, in all of my 2.00 lests. I never found another remedy that would cure app chronic case in ten.

Write me and I will send you the book. Try my remedy for a month, for it can't harm you anyway. If it falls the loss is mine.

ROYAL ARCH MASONS MEET.

General Grand Chapter Convenes at Little Rock, Ark.

Little Rock, Ark., Oct. 6.-The thirtysecond triennial convention of the General Grand Chapter of Royal Arch Masons of the United States opened to-day. After addresses of welcome and response, Doctor James W. Taylor of Lutherville, Ga., general grand high priest, delivered his triennial address.

In reference to proposed dispensations for chapters at Havana, Cuba, and Manila, he recommended caution in creating chapters in foreign lands.

The report of Christopher G. Fox of Buffalo, N. Y., general grand secretary, abows that the total number of affiliated Royal Arch Masons is 13,955, in the past three years the receipts were MRSEI and the expenditures \$574.442.

This, it is claimed, is an important part of the work, as it will be the object of the local branches in this country to discourage the sending of passage money tickets and other aid from this side to those who want to come here who have no definite object in view except the hope of bettering their fortunes.

Cardinal Logue, Primate of all Ireland, is president of the society and many of the most illustrious prelates in the island are active members and workers in the cause. It has been amounced that a representative delegation will be sent over here to attend the St. Louis Exposition and hold meetings in St. Louis at that time when they will be able to meet representative people from all over the United States and ask their co-operation in organizing branches here.

The society's circular states that it was formed "for the burpose of combating emigration, especially emigration from the Irish-speaking districts." Several Officials of Navy Department Believe Cost and Damage Are Not Compensated.

REPUBLIC SPECIAL. Washington, Oct. 6.-Fearful of a deficit in the fund for the mainte the navy, wise heads in the Navy Department are counseling a curtailment of the present systeem of army and navy maneuvers. There is a strong undercurrent of feeling in favor of withdrawing all battleships and heavy cruisers from participation in the annual summer war games with the coast defenses on the Atlantic

seaboard. The navy derives little real benefit from operations like those against Portland last summer or at the entrance of Long Island Sound in 1902.

It has been suggested that tops and auxfliaries would provide practically as good sham combatants for the coast fortifications as battleships and could be operated at less risk and expense. The question will be jointly considered by the War and Navy departments. Secretary Moody will make his decision later.

The mobilization every year in the Caribbean for three months of war games and drills, concluding with target practice at Key West, in March, throws upon the dry docks and navy yards an immense dry docks and navy yards an immense amount of work in the spring and again in the fall. To meet the demands the force must be proportionately increased at each period. The resources of the ships are strained, the work is not as well done as if there were not "rush orders" issued and the yards are operated for the time on an altogether abnormal basis. It remains to be officially determined whether the benefit of the sham attacks of battleships to the army is great enough to offset the harm and expense to the havy. Army officers are somewhat inclined to believe so, but naval officers in the department shake their beads and expense the belief that the buttleship squadron will next summer be found making attacks on the coast defense.
